COMPLETION IN 12-16 MONTHS
The 16 month program is completely online. Courses are offered in a sequential format with courses building on each other. The 12-month program is a combination of online and traditional classroom instruction with all of the core courses offered in a face-to-face modality in 5 week offerings. The concentration courses are offered in an online, 11 week format that are offered concurrently with the 3 semester face-to-face classes. This allows students to be in the same cohort, but specialize in different areas of interest, thus allowing a student to complete the program faster.
