BE PREPARED - MAKE AN IMPACT
At Simpson University we want to see you thrive. If you are considering a career in nursing, we encourage you to come prepared. A passion for knowledge and a strong college preparatory background in mathematics and the natural sciences are essential. If you are well prepared and have a passion to save lives, you will find your nursing degree at Simpson University not only challenging, but also incredibly rewarding.
OUR NURSING MAJOR will prepare you for a dynamic career in the nursing industry. You will gain a broad-based foundation in the biological sciences and specific education that is necessary to pursue a career in the healthcare field. We continue to expand our science facilities to enhance our institutional heritage as “Gateway to World Service” and to ensure you get the best education possible. Moreover, you will have the opportunity to practice stewardship and expand your horizons...all while earning credits toward your degree.

DEGREE STRUCTURE

Year 1
Take general sciences in Human Anatomy, Human Physiology and Introduction to Chemistry as well as introductory courses in English, Psychology and Bible.

Year 2
Continue to build on your knowledge base with Nutrition and Microbiology, along with Statistics in the math sequence. Take Humanities and Bible courses as well as your first nursing-specific courses. Clinicals also begin in this year.

Year 3
Begin courses within the major and work with your faculty adviser to research graduate opportunities. Upper-division Bible courses challenge you to dive deeper into God’s Word.

Year 4
Complete your coursework in the major and experience our senior capstone course.
